Quality Control	1. Double stitching throughout the unit with triple stitching. 2. Quadruple stitching in key areas inside the base of the unit. 3. All strips at joints and corners must be reinforced.

#### workmanship:

1) Reinforcement.

We make reinforcements at every weak points like welding seams, inside baffles, corner ect.

2) Durable anchor ring.

For anchor ring, we use stainless steel material which last longer than other metal in water.

3) Durable parts. All our parts like handles, anchor rings are not easy to peel off.

4) Stable Connection System. Our eyelet connection and anchor ring connection system, which make the whole park very stable.

#### Why choice us:

1. Safe: All our designs and products are strictly inspected according to the safety standards to make sure all the parts of the toys will cause no harm to the kids. All the metal parts are smooth and the plastic parts are no-toxic, anti-ultraviolet property.

2. Versatile: they can be custom designed for any occasion

3. Flexible: our attractions can be set up on an open field, back yard or parking lot

4. Our product with strong D-ring anchor for stakes, PVC inside baffle, reinforcement on the air hole, extra strips to reinforce seams eliminating stress against ripping or air leak, we add reinforcements in places which can affect inflatable toys' life time, such as jumping area.

#### FAQ:

1. Can we change the size and color based on the original ones?

The size and color can be changed according to your demands. Please contact us to get more details about the products before it is to be finished yet.

2. How to install the inflatable products if I am fresh?

It is very easy to install. Prepare the ground, open the package of inflatables and blower. Power on the blower and inflate it.

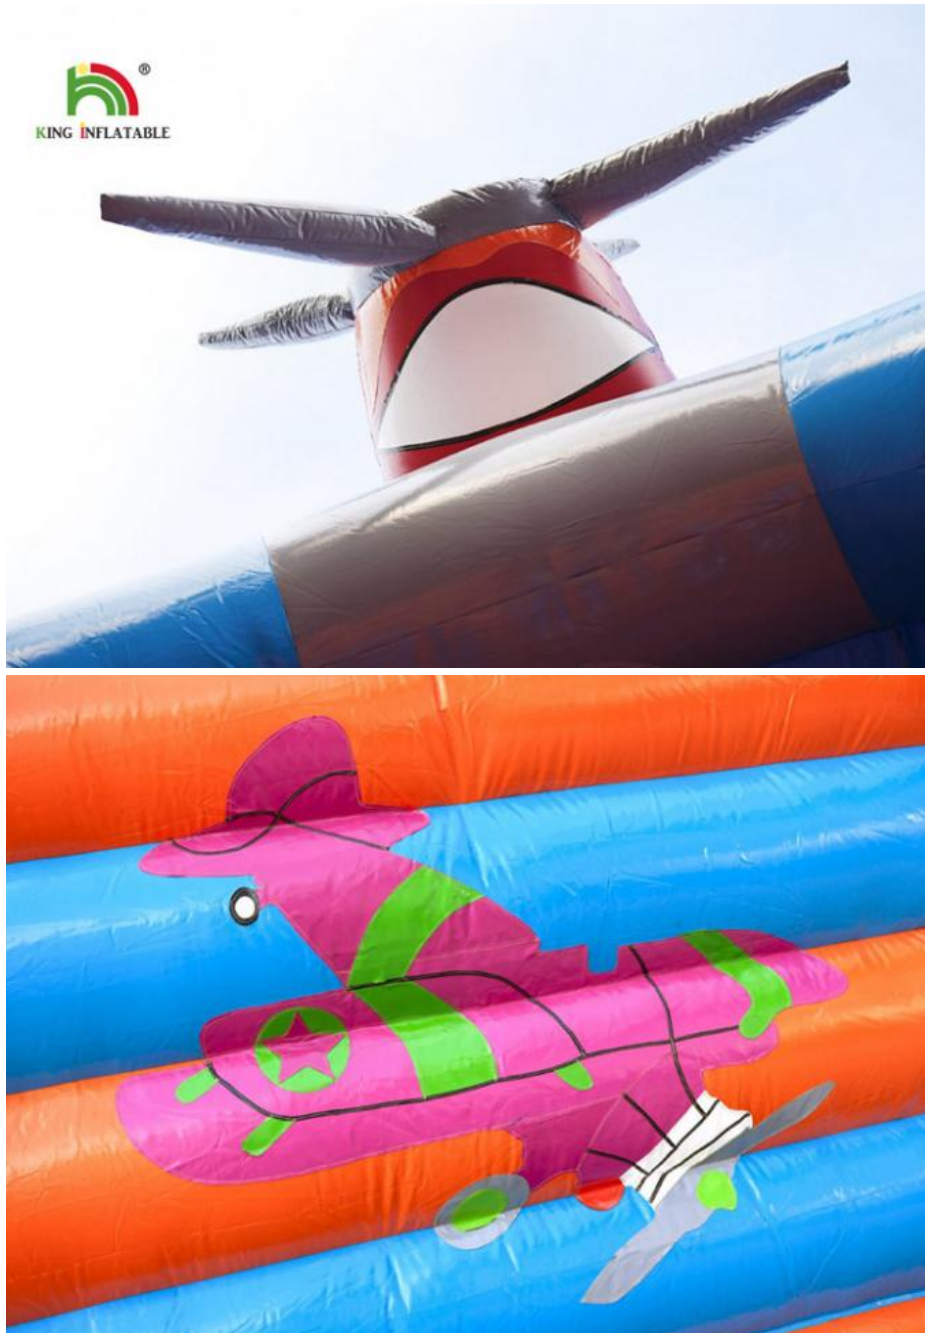

3. What are the products included?

It includes inflatable tent, repair kit bag(including the main colored materials, glue, manual).

4. Your blowers and pumps meet CE/UL requirements?

Yes, we can provide one or two as your demands if possible.
